Even ghosts love candy, as shown on this cute Halloween coloring page. Science is usually a topic of great interest to children. Kids like to know how and why things work, and science is part of everything, from animals and earthquakes to the human body. Take advantage of the student's fascination with science-themed topics and incorporate fun prints and practical learning activities into their academic studies. It's never too early to teach children to document their science lab results. Teach them to make a hypothesis (cultivated think) of what they think the outcome of the experiment will be and why. Then show them how to document the results with scientific report form. Meet the men and women behind today's science using free worksheets, such as Albert Einstein's printable, where students learn about one of the most famous scientists of all time. Spend some time scientist scientist such as parts of the microscope. Study the general scientific principles that people use every day, often without realizing it, such as how magnets work, the basics of Newton's laws of movement, and the operation of simple machines. Earth, space, planets and stars are impressive for all ages. Studying life on this planet— and in the universe — is a topic worth detailing with your students. Students soared into the sky with astronomical and space prints. Study weather and natural disasters like earthquakes or volcanoes. Discuss the types of scientists who study areas like meteorologists, seismologists, volcanologists, and geologists. Spend time outdoors creating your own rock collection and indoor learning about them rocks printable. Children love learning about the creatures found in their backyard. Spring is a great time to study birds and bees. Meet the lepidopterists-scientists who study moths and butterflies and entomologists who study insects. Organize a field trip to a beekeeper or visit a butterfly garden. Visit a zoo and learn about mammals such as elephants (pachyderms) and reptiles such as alligators and crocodiles. If young students are fascinated by reptiles, print the reptiles coloring book for them May be a future paleontologist in class or homeschool. If so, visit the natural history museum to learn about dinosaurs. Then, taking advantage of that interest in a series of free dinosaur printables. As you study animals and insects, discuss how the seasons—spring, summer, winter, and winter—affect them and their habitats. Oceanography is a study of the oceans and creatures that live there. Many of the animals who call the ocean at home are very unusual looking. Help students learn about mammals and fish in the oceans, including dolphins, whales, sharks and seahorses, and. CrabsJellyfishManateesOctopusesSea TurtlesStarfish Then dig deeper by exploring additional facts about dolphins, seahorses and even lobsters.
